

A Core Of Silence

Jim Reilly

1) A core of si - lence breathes be - yond all words,
2) And half the mu - sic lies wi - thin the pause,
3) The 'true re - li - gion' ga - thers up its text:

Or else the words have li - ttle worth;
Be - tween the ar - ches of the heart;
"In the be - gi - nning was the Word";

To 'heart' or 'soul' or 'spi - rit' it comes forth;
The print u - pon the page means less than ink,
But I seek qui - et - ness be - hind that start,

The words we name them ma - tter not.
Un - less the white and black both speak.
And name it no - thing, much less "God".
